RE: INDEXING PROCEDURES - MAJOR CASES

There is attached, the result of a serial by serial review of the first 4017 serials in this case. This review was made for the purpose of identifying serials wherein each of 49 principal subjects are mentioned. No attempt has been made to eliminate duplicate information.

A summary type card has been prepared for the general indices reflecting that the attached listing of serials appears as serial 4039 of this file. An original and two copies will be filed in this case file. A copy of the listing for each of the 49 subjects will be serialized into each main file and this fact will also appear on the same summary card. Copies are being made available to the Espionage Section and other copies will be used in this section, in order to further evaluate this method of improving our indexing procedures in major cases.

RECOMMENDATIONS:

1. That this memorandum be approved for filing as serial 4039 of the Silvermaster case.
2. That copies of this memorandum be filed in each of main files of the 49 subjects mentioned on attached list.
